

THE RESERVE

A Lifestyle Close
To Nature

Set in the natural beauty of the west of Mauritius island at Domaine de Palmyre, The Reserve is a collection of modern luxury villas created by the developer's a distinct vision to connect with nature. The development is surrounded by majestic panoramic views across Black River mountain ranges, Le Morne and towards the marina and Tamarin bay, providing its residents with the island's most peaceful and exotic living experience.

Seeking to capture the best in life, The Reserve elegantly combines lavish design, high feature security, as well as eco-friendly technology, while committing to preserve the natural integrity of its exceptional environment and native wildlife.

Mauritius Island

A New Way of Living

One of the most beautiful and exciting destinations in the Indian Ocean, Mauritius Island offers the perfect setting for an inspiring and refreshing lifestyle with its tropical climate, natural beauty, melting pot of cultures and inviting hospitality. Also known for its favourable fiscal environment, the island is a World-Class tourist location easily accessible by over ten airlines over several different routes.

Introducing DOMAINE de PALMYRE

A Walk on the Wild Side

Inspired by the African Savanna, Domain de Palmyre is a stunning development nestled on high grounds amongst unspoilt valleys and mountains and offers a concept that proudly enhances the fauna and flora of the region.

The area is home to a broad collection of indigenous plants and animal species. To the delight of its select clientele, the relaxing sounds of the surrounding wildlife can be heard, with deer, monkeys, hare and exotic birds living freely in this peaceful sanctuary.

Domaine de Palmyre's strict architectural guidelines aim to preserve the originality of the site by harmonising the construction and preserving the area's natural features.

THE ModernArchitecture

The Reserve's design adopts a sleek architectural language that blends modernity with natural beauty.

Careful planning of the layouts ensures that all the villas benefit from the breath-taking sea and mountain views, enhanced by glass balustrades on every balcony. One of the most notable design features are the spacious open plan living area and the large sliding glazed doors that effortlessly unites the interiors and exteriors allowing the residents to enjoy the sought-after indoor outdoor tropical lifestyle.

The villas are built around nature and are eco-friendly with energy efficient concepts such as solar water heating and outdoor lighting systems. The use of floor to ceiling openings not only maximise the indoor light and space but also allows for cross-ventilation throughout the villas, thus adding to the ecological notion of the development.

The Reserve is built by the local expertise and craftsmanship with a quality construction that meets European standard, using the finest materials outsourced mainly from Europe. It is with a strong sense of duty that The Reserve provides a first-rate construction, bound to exceed the owner's expectations.
